CONTENTS

	Page
Review of the UK Wind Energy Programme <i>L.A.W. Bedford</i>	1
The Present Status of Wind Power in the U.S. <i>L.V. Divone</i>	5
The Rutherford Six Metre Variable Geometry Vertical Axis Wind Turbine <i>G. Stacey and P.J. Musgrove</i>	21
Double Output Induction Generator Scheme for Wind Energy Conversion <i>H.R. Bolton, W.C. Lam and L.L. Freris</i>	30
A Review of Medium-Scale Wind Turbine Generators <i>B. Buss and W.E. Hardy</i>	41
Export Considerations for Large Wind Turbine Generators <i>D.F. Warne</i>	51
Performance Measurements on the Six Metre Diameter Horizontal Axis Windmill <i>P.D. Dunn and T. Eisa, M. Ewens, A. Ibbetson</i>	57
An Extended Multiple Streamtube Theory for Vertical Axis Wind Turbines <i>S. Read and D.J. Sharpe</i>	65
Calculation of the Flow Patterns and Performance of Wind Turbines Using Streamline Curvature Methods <i>D.J. Milborrow and J.F. Ainslie</i>	73
Blade Shapes for Horizontal Axis Wind Turbines <i>M.B. Anderson</i>	84
Wind Tunnel Tests on the 1/30TH Scale Model of the 60M Wind Turbine Generator <i>M. Buckley</i>	96
System Economic Theory for WECS <i>A.P. Rockingham</i>	109
A Comparison of Studies of WECS Economics for Utility Applications <i>R.H. Taylor and A.P. Rockingham</i>	118
The Expected Cost of Electricity Generated by the U.S. MOD 2 Windmill <i>R. Lowe</i>	127
Wind Energy Systems with Battery Storage and Diesel Back-Up for Isolated Communities <i>G. Slack, B. Sexon, R. Collins, P. Dunn, N. Lipman and P. Musgrove</i>	134
Storing Wind Energy as a Liquid Fuel <i>D. Miller</i>	143
Wind Power Integration Studies an Overview of the Reading University Programme <i>N.H. Lipman, E. Bossanyi, P.D. Dunn, P.J. Musgrove, G.E. Whittle, C. Maclean</i>	151
The Hull Wind Powered Housing Project <i>D.C. Hodges</i>	163
Offshore Siting of Wind Turbine Generators in U.K. Waters <i>P.B. Simpson and D. Lindley</i>	173
Special Purpose Anemometry for Wind Power Studies <i>U. Hassan</i>	186
The Predictability of Wind Turbine Output <i>E.A. Bossanyi, C. Maclean, G.E. Whittle, P.D. Dunn, N.H. Lipman and P.J. Musgrove</i>	194
Wind Data Requirements for Wind Turbine Generator Design <i>U. Hassan</i>	202
Wake Structure Analysis <i>B.R. Clayton and P. Filby</i>	211
Field Measurements Collaboration <i>D.T. Swift-Hook</i>	221
Initial Test Results on the 5M Horizontal Axis Wind Turbine at Swansea <i>R.G. Herapath and M.G. Woollard</i>	223
List of Delegates	229
